Delock Cable RJ45 Secure Cat.6A 0.5 m

Description

This network cable by Delock is used to connect different network devices, such as a patch panel to a switch. The connector can be locked in the RJ45 jack, and the cable is protected against removal. At the same time, the socket is blocked and secured from unauthorised use. This allows control of physical access to the network in safety-critical areas, e.g. in public places or data centers. To open the lock, the included tool is required.

Item no. 85330

EAN: 4043619853304

Country of origin: China

Package: Zip poly bag

Specification

- Connectors:
  1 x RJ45 male >
  1 x RJ45 male
- 1:1 connected
- Cat.6A specification
- Shielded (S/STP)
- Copper cable
- Cable material: LS0H (halogen free)
- Cable gauge: 26 AWG
- Cable diameter: ca. 7 mm
- Colour: white
- Length incl. connectors: ca. 0.5 m

System requirements

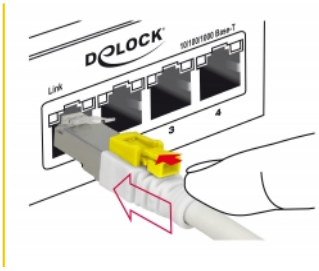

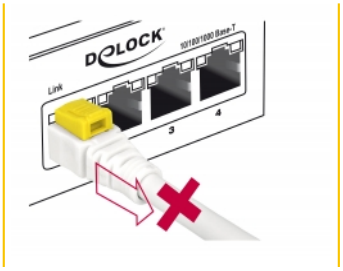

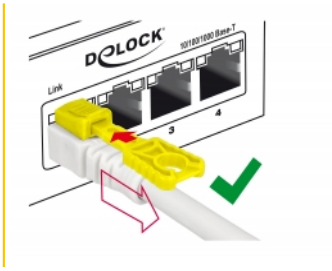

- One free RJ45 jack
